

Future project ideas

1. Vocational training:

- Vocational training, how to improve quality?
- Implementation of elements of the dual system
- Teachers and the environment of entrepreneurship: how teachers can get to know the newest technologies ASAP so they would be able to transfer to the school environment (methods, teachers' exchange projects), teachers' motivation of being active;
- Promote the exchange of experiences

2. Entrepreneurship:

- Social entrepreneurship
- Entrepreneurship and start-ups
- Young entrepreneurs Erasmus
- Using EU funds and tools used in promoting entrepreneurship among youth
- Programs for pupils about promoting entrepreneurship, not losing creativity
- Promotion of local handicraft skills for local youth (not to lose different old professions because of lack of interest from youth, Italian example)
- Motivation to start a business. The importance of cooperatives and social economy, The support from public institutions

3. Universities:

- Collaboration between authorities/universities and private sector
- More exchange between universities to get the students to meet new possibilities
- Relationship between university and companies
- Business angels
- How to promote collaboration between educational institutions (e.g. vocational schools and universities) and local entrepreneurs and local municipalities in order to help or to create a good environment for young entrepreneurs (helping with mentoring, active participation in local business idea contests as sponsors and as lecturers – sharing good examples), cooperation between young entrepreneurs and different organizations (e.g. JCI) promoting international networks;
- Motivation to study

4. Drop-outs:

- Concrete measures to tackle the challenge of drop-outs
- Preventive actions: working with very young students
- "Youth guarantee"
- NEET young people 15-24 years (social work to reach them, support to bring them in work, education, etc.)

5. Student exchange:

- Fostering exchanges
- Exchange of students to other countries, so they can come back and share experience
- More mobility for young people, especially for those in danger of exclusion

6. Career consulting:

- Youth advisory
- Career consulting
- Mismatch of support and young people
- Career Consultant training & seminars
- Youth motivation and how to “motivate their motivation”
- Guidance and counselling (consulting) centres (for career consulting) near the local municipalities (is there such a practice somewhere, good examples or best practice);
- Cooperation between local NGO’s and local municipalities to help consulting and coaching youth in their schools (German experience with Miteinander Leben)
- The exchange of good practice concerning youth guidance and career consulting events (e.g. “Shadow Day”; Career Week etc.), helping to improve this system in countries;

7. Employment:

- Over 40 and unemployed
- Women’s employment
- Qualified young unemployed
- Green Jobs: sustainable job

8. Integration:

- Integration of immigrations
- Inclusion through integration
- Multicultural society
- Multilingualism, CLIL (integration of a foreign language in different subjects, Spanish experience)

Other:

- Statistic data collection (Italian problem is unemployment data, more cooperation between each actor and employment center to have the actual data)
- Working with teachers, teacher’s approach
- Connection between teachers’ age (aging) and stagnation (the problem in EU – raising the retirement age); how to help those teachers in pre-retirement age to raise their competitiveness by being modern, more up-to-date, how to promote them to use informal methods, experience of other countries, maybe teachers’ exchange project or knowledge exchange;

- Promotion of practical use of obtained knowledge in schools (e.g. information science not only theoretically but also practically)
- Parents' clubs and their willingness to cooperate with educational institutions, involvement of local action groups or local community groups in helping their local schools; cooperation between them; schools for new parents
- Models of cooperation between local municipality-NGO-educational institutions (consortium); good practice examples; sharing them
- Volunteerism in different levels
- Sport for all and healthy lifestyle, promotion between youth
- Patriotism and activity, motivating youth to be proud of their local municipality; people's motivation of being active citizens and actively participate in different NGO's, elections etc.
